2021 ANNUAL REPORT
PUBLISHED FEBRUARY 2021

Chief's Message

On behalf of the men and women of the Stoney Point Fire Department Inc., I am pleased and honored to present the 2021 Annual Report.

2021 proved to be another challenging year, due to the on-going effects from the COVID-19 pandemic at the beginning of the year along with its continuing and ominous effects on our staffs and the Fire, Rescue and Emergency Medical Services that we provide. Our dedicated staff of volunteers and career members worked extremely hard, thus allowing us to keep the department's services operating and providing continuous public safety service to our citizens and taxpayers.

We also focused on our March 2021, Insurance Service Office (ISO) Public Rating Classification Review by the North Carolina Department of Insurance (NCDOI) and Office of the State Fire Marshal (OSFM) rating bureau. Our efforts paid off and our department's Class 3 ISO rating improved to an ISO Class-2 rating effective August 1, 2021. We also prepared for our re-accreditation PEER team visit.

We had another record setting Trail of Terror (TOT) Fund-Raiser thanks to the over 11,000 supporters that purchased tickets and supported our annual fund-raiser. Again, we owe all our faithful TOT followers a big Thank You. As always, all funds raised are re-invested into our public safety mission.

Our Board of Directors and Staff did an outstanding job staying within our approved budget in all the program areas in 2021. Our Fire District remains fiscally sound and continually looks for ways to effectively utilize our taxpayer funds by continuing to cut any unnecessary costs without jeopardizing our mission. Therefore, our Stoney Point Community should be incredibly proud and thankful to our department for delivering exemplary Emergency Services to not only our fire district but also to our surrounding communities.

In closing and as always, I want to again thank the City of Fayetteville, Hope Mills and all our partner agencies, for assisting us with professional quality automatic aid and we look forward to working with them in 2022. Thank you for what each of you do and know that we will recover from the COVID-19 pandemic. Our Stoney Point team will continue with our mission of taking care and serving the public that need our help.

Sincerely,

Freddy L. Johnson Sr.

About Us

The Stoney Point Fire Department Inc. (SPFD) was chartered on June 14, 1964 as a volunteer organization and is now providing fire suppression, rescue, hazardous materials, and medical first responder services out of two fire stations. On-duty staffing is provided 24 hours a day, seven days a week. SPFD is currently staffed with 21 full time and 76 volunteer uniformed personnel and 18 support members with a total membership of 115 (83 percent volunteer) SPFD staffs two engine companies, cross-staffs a ladder truck and heavy rescue, as well as various other specialty units. SPFD minimum daily staffing consists of seven firefighters and officers supplemented by available volunteers. The minimum staffing for Station 13 (engine, truck, and heavy rescue) is 5 paid staff. The minimum staffing for Station 19 (engine company) is 3 paid staff. Department staffing increases overnight (1900 - 0700 hours) with 14 volunteers distributed between Stations 13 and 19.

The 21 square mile fire district is located in Cumberland County, NC, also known as the Sandhills Region, roughly 90 miles south of Raleigh. The latest population estimate (2019 American Community Survey) indicates a resident population of 20,351 within the district boundaries.

Stoney Point also provides full responder service contracts to both the City of Fayetteville and Hope Mills providing full services to both municipalities, as well as automatic aid regionally.

Vision Statement

The vision of the Stoney Point Fire Department is to enhance its capability as a community resource within the next five years to meet the needs of its citizens, volunteers, and employees. This will be accomplished by embracing change and challenging ourselves to be under a constant state of improvement striving for excellence.

Mission Statement

The Stoney Point Fire Department's mission is to protect its citizens and create a safer community through coordinated training, education, prevention, investigation, emergency response and leadership

The Stoney Point Fire Department achieves its mission and vision by building upon a system of values. We uphold professionalism as our core value. Our defining values also include:

***Professionalism:** Our core value of professionalism defines who we are. We believe in upstanding and sound service to the community we serve. We take our role seriously and do all that we can to be a positive role model to future generations.*

***Integrity:** We believe in living by moral and ethical principles. We demonstrate our values by the way we live our lives in the public's eye and in the confines of the fire station.*

***Compassion:** We believe in caring for our community members who are suffering from tragic events in their lives. We do all that is possible to assist in stabilizing the situation with a merciful attitude.*

***Service Excellence:** We believe in providing the best possible service to the community where we live and work. We do all we can to meet the needs of our neighbors through a humble, competent, and well trained, efficient team.*

***Honesty:** We believe in being truthful, ethical, and fair. We strive to say what we mean and mean what we say even in times when the truth may hurt. We are dedicated to disclosing the entire truth.*

***Stewardship:** We believe in protecting and caring for the community's resources and wish to be held accountable for their current and future use. We place the needs of the community ahead of our own.*

***Courtesy:** We believe in being kind and polite to our fellow firefighters and the citizens we serve.*

Services & Programs

- * Fire Suppression
- * Basic Life Support/EMT Defibrillator
- * NC Medical Responder
- * Heavy Rescue Provider
- * Disaster Response
- * Terrorism (CBRNE) Response
- * Hazardous Material Response
- * Public Fire and Life Safety Education
- * Permanent NC Child Safety Seat Checking Station
- * Wilderness Search
- * Rescue Provider
- * High Angle Rescue
- * Agricultural Rescue
- * Swift and Stillwater Rescue Provider

Goals & Objectives

- * Meet the recommended NFPA 1710/1720 response time 90% of the time.
- * **Maintain all required ISO and Benchmark training requirements for all.**
- * Maintain all In-Service EMT & EMS First Responder training requirements
- * **Maintain Accredited Status with the Center for Public Safety Excellence (CPSE)**
- * Maintain and improve our Class 2 Public Protection Rating
- * **Maintain NIMS Compliance**
- * Maintain and improve our Apparatus Fleet Mobile Automation Technology
- * **Continue to apply for grant opportunities**
- * Increase firefighter safety and lower cancer risks through pro-active prevention
- * Maintain and improve outside agency partnerships
- * **Enhance our Community Risk Reduction (CRR) within our Community**

Accreditation and ISO

Assistant Chief Derrick Clouston

Accreditation Manager

The Stoney Point Fire Department Inc. first achieved accredited status under the eighth edition of the Fire and Emergency Service Self-Assessment Manual (FESSAM) in 2012 through the Commission on Fire Accreditation International (CFAI). The department successfully re-accredited in 2017 under the ninth edition of the FESSAM and in December 2021 was again recommended by the onsite PEER assessors for re-accreditation under the tenth Edition. In March 2022 our department is scheduled to appear at the CFAI Commission hearing during the Center for Public Safety Excellence (CPSE) Excellence Conference in Orlando Florida, for our final approval. Today Stoney Point is one of 295 accredited agencies world-wide, only twenty-three of which are in North Carolina.

The accredited agency status is valid for five years, at which point our agency must re-apply and complete the formal process again. Our department is currently working on the list of recommendations presented by the peer team assessment team during the December 2021 on-site visit.

In 2021, our department underwent an evaluation by the North Department of Insurance and Office of the State Fire Marshals (OSFM) Rating Bureau which conducts Insurance Services Office (ISO) evaluations. ISO evaluations analyze a department's public fire protection capabilities. This indepth assessment evaluates water supply and distribution systems, fire department resource deployment, response times, training compliance and apparatus and equipment. While a rating of 1 is the best; and a rating of 10 is worst. ISO ratings are used by Insurance companies to determine insurance rates for residential and commercial structures within our fire district.

During our 2021 rating assessment, Stoney Point improved from an ISO 3 to an ISO Public Protection Classification (PPC) rating of 2. Deputy Commissioner of Insurance/Deputy State Fire Marshal Brian Taylor on behalf of Commissioner/State Fire Marshal Mike Causey presented the new rating during the department's May 2021 membership meeting.

Department Training 2021

Assistant Chief Kevin Murphy

COVID and the related concerns created challenges for 2021's training program. Firefighters were hesitant to gather in large groups and in areas where social distancing was not achievable. These valid concerns effected our department's training program and could not be avoided.

Stoney Point adjusted, overcame these challenges, and continued to aggressively train. COVID did not stop our firefighters from pursuing and reaching training excellence. Given the limiting factors, Stoney Point firefighters met the challenge head on. During 2021, SPFD experienced an ISO inspection where we increased our grade from a Level 3 to a Level 2 fire department. A large portion of our grading was based upon our department's training program, and the required training hours our firefighters attained. Our training program received high marks and reflected upon the outstanding dedication of our members.

Although our total training hours dropped from 33,411 to 21,985, this does not denote the unsurpassed commitment our firefighters put forth to gain knowledge and capability. The Insurance Service Office (ISO) requirement dictates a minimum of 240 training hours for firefighters and additional hours for drivers and officers. During 2021, 82% of our firefighters met or exceeded their respective ISO requirements.

Stoney Point has eight benchmark drills. These "bread and butter" drills represent tasks that would be encountered during the first five minutes of structure fires. Over 70% of our membership completed all eight drills. These drills were primarily executed on firefighter duty nights where our members stay in house 7 PM to 7 AM for duty. Given that most of our firefighters are volunteer, these drills were completed after they worked their primary jobs, and clearly reflects the devotedness of our members towards training. Our training program is not limited to drills and benchmarks. Our members constantly seek and complete external training through community colleges in Cumberland and the surrounding counties. This training includes specialty classes in pump operations, aerial ladder operations, hazardous materials, technical rescue, and emergency medical services.

What's ahead for 2022?

We will continue with our rigorous training program. Although we have one, mandatory monthly drill for our members, we will use the other Thursday nights for Engineer and Technical Rescue training. These opportunities offer additional training for our firefighters in the specialty areas they possess or desire to become competent. We will provide information on external training opportunities (classes, seminars, online training, podcasts, and webcasts) to our members for their attendance. These opportunities allow our firefighters to gain training at their convenience and within the limitations of their work and home schedules. As we remain in the COVID pandemic, Stoney Point will continue to enhance its capability and efficiency through individual and collective training. We will address the limiting factors head on and continue viewing them as opportunities to excel and improve.

Fleet Maintenance

Sr. Engineer David Stewart

Stoney Point Fire Department Inc. has its own Fleet Maintenance program that coordinates and performs preventive maintenance and repair of our entire fleet of vehicles, apparatuses, and specialized equipment. Our Fleet maintenance division is staffed seven (7) days a week from 7 am until 7 pm to provide maintenance support to our fleet of vehicles, apparatuses, and specialized equipment. Annual certification of all ladders and breathing apparatuses repairs and testing is performed by private contractors. Major fleet maintenance and repairs are continued to be outsourced to local private truck and machinery vendors, including Atlantic Emergency Services (AES) a local Pierce Fire Truck warranty and repair merchant.

Our maintenance staff also maintains specialist vehicles and equipment belonging to the Cumberland County Fire Chiefs' Association.

Stoney Point's fleet maintenance facility sits on 12.87 acres and has two drive in maintenance bays that provide ample space for up to two apparatuses at a time, with the remaining building space used for storage. This 5000 square foot building is a significant improvement over our old fleet maintenance process of working within our apparatus bays.

Fire Life Safety Education

Assistant Chief Brandon Hanzal

The year 2021 was a new kind of challenge to the department's Fire Life and Safety Program. The safety measures that were put in place by our local government to help prevent the spread of COVID-19 to serve the public implementing social distancing and masks during our events. Numbers of attending patrons were down as the education part of the program took a hit mostly due to our public schools being closed for the year to outside agencies. The department has four fire life safety trained and certified providers to help deliver our departments public safety message. The program is broken down into four focused sections. During the 2021 campaign 10,112 adults and 4,100 children were educated through Child Passenger Safety, Public Education, and Public Recruitment and Smoke Alarm installations.

In an effort to reduce the incidents of injuries and deaths in children riding in vehicles our department's Child Passenger Safety section of the program now has 8 CPS Technicians and installed 108 child safety seats, and educated parents and children about child passenger safety. The Stoney Point Fire Department continues to be recognized as a permanent checking station and hopes to stay involved in 2022 by doing at least one off-site seat-check in the community in conjunction with the other agencies. This year the department worked with Safe Kids Cumberland County and participated in a city wide Safe Kids workshop. We have plans to participate in that event in 2022 pending restrictions due to COVID-19. The Stoney Point Fire Department continues to be a full participating partner in the Cumberland County Safe Kids program which includes our military neighbors from Ft Bragg. The Committee meets on a monthly basis and shares in the staffing responsibilities for different community events throughout the year.

The Public education was very limited in 2021 due to social distance rules. Our previous target for education was halted due to our schools being in session virtually. Small groups such as Girl Scout troops and local church youth groups were still targets of outreach on a limited basis where social distancing was possible. Efforts to find new ways to reach out to school aged children will continue to be a topic of discussion with our schools until we are allowed to do face to face learning again. Smoke detector installs in 2021 focused on messaging and reminders for residents to remember to perform annual maintenance on their systems.

2021 ANNUAL REPORT
PUBLISHED FEBRUARY 2021

2021 Fire Life Safety Education Continued

To limit exposure to crews very few installs were performed. The County has improved the process to track installs digitally which we are hoping to be able to use the data to help with further canvassing efforts and better overall data to quantify future actions

The **2021 Trail of Terror** had a record-breaking year for attendance this year even with the COVID-19 protocols in place. Attendance was over 11,295 patrons but our event only operated 9 nights instead of the traditional 10-12. Our Public safety messages were placed on local Lamar digital advertising boards and all ticketing materials. Website undeadfd.com and other social media sites were used to further messaging efforts.

2021 ANNUAL REPORT
PUBLISHED FEBRUARY 2021

SAFETY

Lieutenant Chandler Stewart,
Safety Officer

2021 was a successful Health and Safety year for the Stoney Point Fire Department. Our largest and most important milestone was that we worked some 57,600 employee hours without any injuries. That win is thanks to the hard work from all members to accomplish our mission safely while extending risk on the fire ground. Of our other victories, the next is a successful first-round review of our Health and Safety programs by the Center for Public Safety Excellence (CPSE) Peer Team. While some of the categories carried over from previous models of the accreditation template, the Health and Safety category (Category 11) is new and a focus for CPSE. Hash marks in the win column include a few new processes for identifying near-miss conditions we experience while working for the department and representing our department on the fire grounds and in the community. While the process is still in the development stage, the framework for reporting near misses is available in Emergency Reporting, our new record management system. On the continuous improvement front, we did identify the need to seek new technology for conducting Respiratory Fit Tests to comply with the requirements of our Respiratory program. After a bit of research, our Health and Safety Team did identify a new Fit Testing machine that returns results faster and does allow for the paperless recording of those results.

Stoney Point Fire Department was accredited by the Center for Public Safety Excellence (CPSE) in 2012. The road to accreditation was long but achievable. As we have been reaccredited through the years, one thing remains certain; the accreditation process is challenging. One challenge thrown at Stoney Point during this reaccreditation cycle was a new category identified as Health and Safety (Category 11). Some of the elements of Category 11 were pulled over from previous versions of the accreditation model, while others are of renewed focus. Elements within this category did include Health and Safety Officer responsibilities, policies and procedures, risk reduction, hazard identification, communications, risk identification, training, near-miss reporting, incident investigations, cancer exposure prevention, record keeping, fire ground safety, and other comprehensive topics. As is always essential, CPSE saw fit to focus effort on ensuring that accredited organizations have programs and processes devoted to the Health and Safety of current and future firefighters. After reviewing our provided exhibits, the peer team did an interview with the Health and Safety officer. The interview went well and did focus on our efforts as a team toward keeping firefighters safe and whole. In the end, the CPSE Peer Team did indicate a positive message that they would recommend re-accreditation to the CPSE governing body.

2021 ANNUAL REPORT

PUBLISHED FEBRUARY 2021

SAFETY Continued

As mentioned previously, a part of the CPSE accreditation process is the implementation of a near-miss reporting program. Stoney Point does focus on maintaining a Near-Miss program. Members should know that should something occur that is considered unsafe, they should report those events to their duty officer. That process does not change. What is new is that the membership may report near-misses to the Health and Safety Officer by adding a Near Miss report to the Daily Log within Emergency Reporting. After these entries are entered into the log, the Health and Safety Committee does review these items to investigate a process to resolve those issues. Members are encouraged to provide feedback about their near-miss events to permit the committee to generate recommendations for a solution that meets the member's expectations. You may expect to see further details and training within this 2022 year on reporting near-miss events.

Along with other good news, Stoney Point did acquire a new fit testing machine. This path to move the department into the future came after our old machine was deemed not feasible to repair as parts were no longer available to fix the machine. This couldn't have come at a better time because we had the opportunity to seek out more efficient and modern technology to fit test firefighters to their Self-Contained Breathing Apparatus (SCBA) masks. Highlights of our new fit testing Machine include reduction of test time from eight minutes to two minutes, paperless and immediate results, on-screen demonstration of the testing process, portability, and above all....firefighters no longer need to go through the long embarrassing process of speaking a silly poem as a part of this testing. As we do every year, November and December are our fit testing months. We were able to run each firefighter through the testing with the new machine before year's end. As the machine is portable, the testing process was integrated into our SCBA Training program so that new members receive their fit test on initial placement in an SCBA.

Emergency Medical Services

Assistant Chief Sean Johnson

The Stoney Point Fire Department Inc., has a strong Emergency Medical Services (EMS) program, consisting of Basic Life Support (BLS) first responders and Emergency Medical Technicians (EMTs).

Our department remains committed to delivering exceptional service to our residents and visitors within service areas as well as regionally. In 2021 our EMS call volume has increased from 2020, but with the on-going COVID-19 pandemic changes within our response protocol had to be introduced. With Center for Disease Control and Prevention (CDC) COVID-19 information changing frequently, often daily with best care practices of patients and personal protective equipment for our responding crews. We also worked persistently to acquire and maintain equipment and supplies to keep our crews safe and reduce exposure of the virus.

In 2021 our crews answered 762 Emergency Medical and Rescue Calls therefore our monthly continuing EMS training and education remains a high priority for our department. We also placed in service and added a new 2021 GMC Sierra Quick Response Medical Vehicle to our fleet.

Our crews work directly with the Cape Fear Valley Medical Center Emergency Medical System, who provides Advanced Life Support (ALS) paramedics and transports all patients to area hospitals.

BUDGET SUMMARY

Treasurer Gary Turlongon

The Stoney Point Fire Department Board of Directors continue to demand and has historically practiced fiscal responsibility, and continuously explores new ways to reduce costs while at the same time maintaining our increasing service level to our district and community

During the Fiscal Year 2021, Stoney Point on behalf of all Cumberland County Volunteer Fire Departments submitted and received a regional Phase 1 radio grant for the purchase of Base, & Mobile Radios, required accessories including programming and Installation funds. We also received funds from the Cares Act and Payroll Protection Plan (PPP) funds for COVID-19 relief efforts. We also benefitted with funds from our 2018 Staffing SAFER grant. Listed below is a selection of our essential liabilities.

Salaries and related expenses:	\$982,669.00
Note Payments: - (Facilities & Trucks)	\$244,736.00
CC-Radio Grant Purchase:	\$695,172.00
Fixed Assets: - (Firetruck, Pickup & PPE)	\$351,816.00
Repairs to Facilities:	\$ 72,380.00
Repairs to Apparatus & Fleet:	\$163,970.00
Insurance:	\$ 64,929.00
Volunteer Expenses:	\$ 34,653.00
Utilities:	\$ 39,251.00
Uniforms:	\$ 16,434.00
Miscellaneous:	\$ 76,869.00

Auxiliary Services

President Valerie Howard

The Stoney Point Fire Department Ladies Auxiliary traces its history back to when the Fire Department was first chartered in June 1964. At the time a small group of women wanted to serve and support their husbands as firefighters and assist with annual fund raisers in support of the fire department mission. Early fund raisers sponsored by the ladies auxiliary consisted of beauty contests, bingo nights, raffles as well as the fire departments annual Fish Fry and Barbeque Plate sales, with all proceeds going towards fire department operations and equipment. Over time and at the turn of the century in 2000's the name of the ladies auxiliary was changed to the Stoney Point Auxiliary. Today the Stoney Point Fire Department Auxiliary consists of a core group of dedicated volunteers that proudly serve our department and community.

There primary mission is to serve and support our emergency services objective. During the 2021 calendar year our auxiliary's mission was again curtailed because of the on-going COVID-19 pandemic, with many of our normal support functions canceled for the safety of our auxiliary members.

Membership in the Stoney Point Auxiliary is an excellent way to show your community support, and our auxiliary members always encourage participation by inviting new members to participate and join. Our auxiliary meets at Station 13 the 2nd Wednesday of each month at 7:30 pm, and anyone interested in joining should call the Station at 910-424-0694.

CCFCA

President Freddy Johnson Sr.

The graph below identifies the dollar amount spent on fire, rescue and EMS services within Cumberland County and Municipalities annually. Significant is the wide-ranging variance between the City of Fayetteville and the Cumberland County Fire Protection Funding. The the City of Fayetteville is a total career department with over 300 full time employees with a budget 3 times larger than what Cumberland County invests in fire protection services. While the COF operates out of 16 fully staffed fire protection facilities, Cumberland County operates out of 20 facilities relying on a combination of full and part time firefighters supplemented by approximately 550 volunteers county-wide when available. Although citizens expect professional service regardless of pay status, the slide below clearly continues to demonstrate the VALUE of dedicated volunteers when comparing budgets.

FY-2021 COUNTY & MUNICIPAL FIRE BUDGETS

As a result of the Public Safety Task Force (PSTF) funding recommendations, in early 2018 in full support of the County Manager's Office the Cumberland County Board of Commissioners adopted an improved and enhanced rural fire protection funding model As a result, the County's Board of Commissioners established a single Fire Protection Service District en-

compassing the territory of all the Rural Fire Protection Districts within Cumberland County for the purpose of financing, providing, or maintaining fire protection, to include emergency medical and/or rescue services as defined by North Carolina General Statute §153A-309, to a greater extent than provided or maintained for the entire county, and referred to as a Service District. Therefore, starting with the 2020 Fiscal year the total Service District tax is based on \$.15/100, however the base funding for each Cumberland County Fire Protection District is based on the amount calculated to be equivalent of \$.10/100 valuation generated within the Rural Fire Protection Approved Insurance and Response District.

The remaining \$.05 cents represents funding stimulus and incentives for all fire protection districts and incorporates additional funding for qualifying low wealth fire protection districts, enticements for emergency medical, rescue, improved Insurance Service Office (ISO) rating and multiple station augmentations and established the

CCFCA - Continued

President Freddy Johnson Sr.

Cumberland County Fire Protection Service District Grant Program as well as funding for the Cumberland County Fire Chiefs Association (CCFCA) for county-wide service extensions. *Funds* from the service district are also distributed to *the* City of Fayetteville for unincorporated areas *surrounded* by the City of Fayetteville. The pie chart below identifies **ALL** fire tax sources for rural departments including contract fees with municipalities and neighboring counties. The Eastover, Stedman and Wade Community Fire Departments also receive fire protection funding from their perspective towns. Beaver Dam, Bethany, Godwin-Falcon, Stedman, and Wade receive low wealth funding augmentation. The chart also identifies the amount dedicated to the CCFCA to support essential county-wide support programs such as, Firehouse Software Records Management Programs, Spectrum Internet Connections, First Net Hotspots for MCT's and tablets, 3 Mobile Air Systems, Public Fire Life Safety and Education Programs, 3 mobile 500-gallon foam trailers, 3 mobile DECON Trailers, a mobile communications and command bus, Caisson Unit, and a state-of-the-art Fire Safety House. The City of Fayetteville (COF) provides services for designated county farmland within the COF. Funds collected within the Manchester Fire District are paid to the Town of Spring Lake for Fire Protection Services. With the opening of the new Spring Lake Fire Station 11 response time to the Manchester area has been considerably reduced.

VFD FY 2021 - ALL Funding Sources

County Fire & Municipal Fire Contracts Consolidated

= \$ 11,302,285

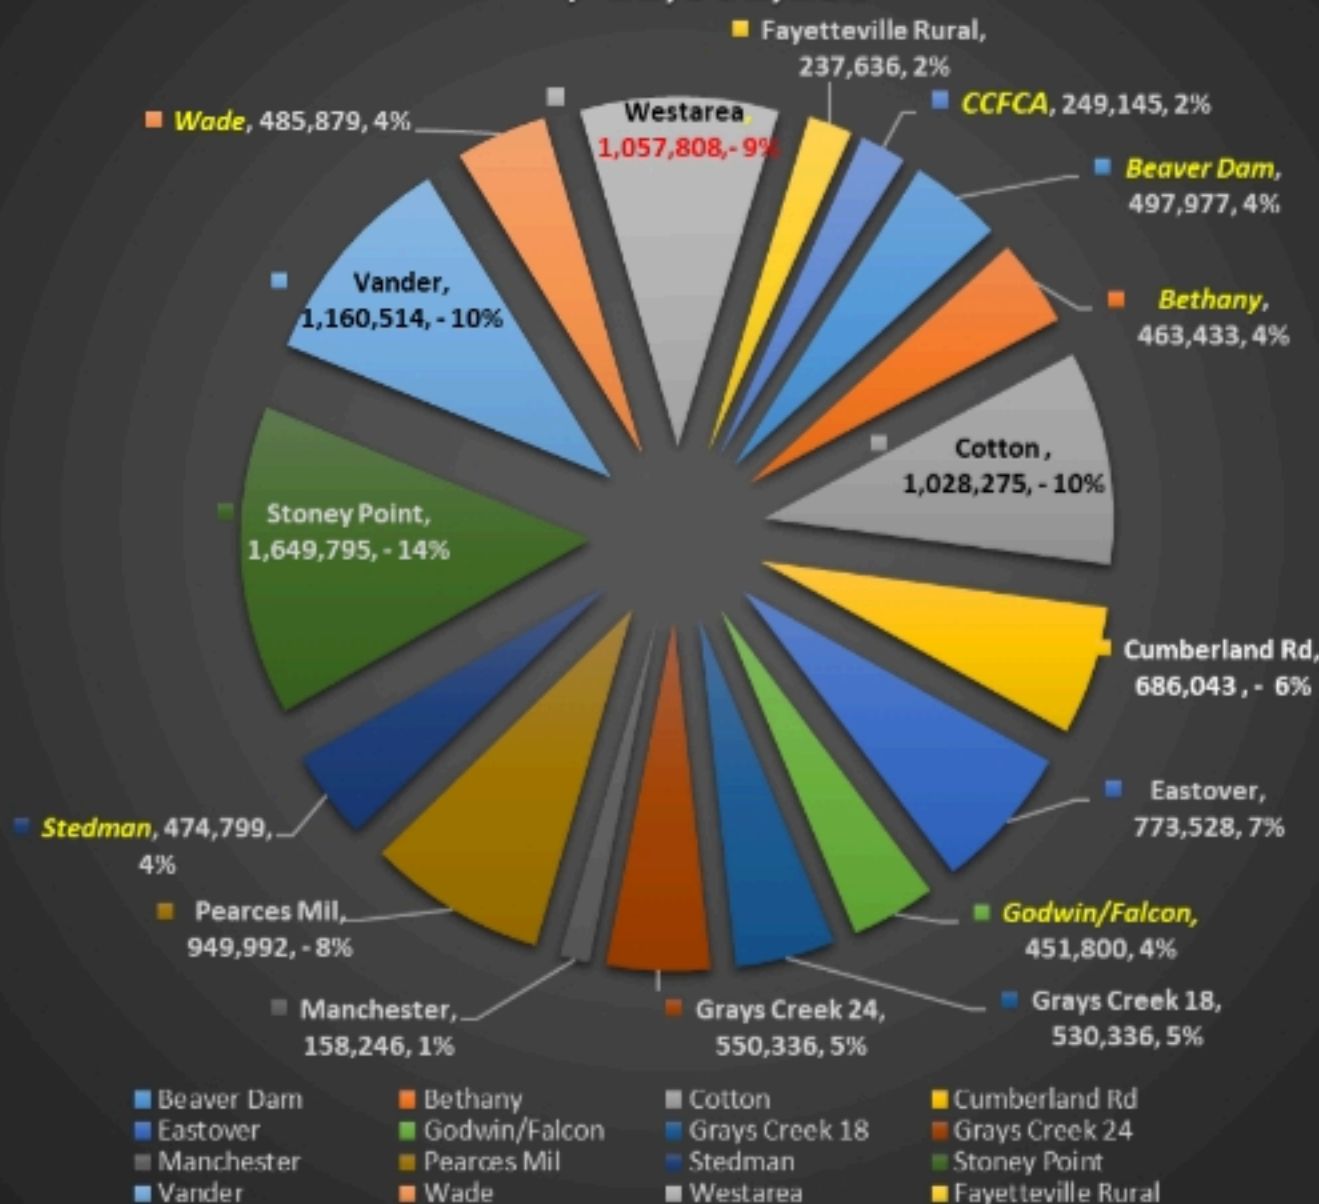

Chart does not include grants or local fund-raising profits collected by various VFDs.

GLOSSARY OF TERMS

North Carolina Department of Insurance (DOI) The North Carolina General Assembly created the North Carolina Department of Insurance in 1899. Now, more than 100 years later, the Department of Insurance provides valuable services to the people of North Carolina by regulating the insurance industry, licensing insurance professionals and others, educating consumers about different types of insurance, handling consumer complaints and much, much more. The Department also houses the [Office of State Fire Marshal](#), which is responsible for a host of other services that improve North Carolinians' daily lives.

Office of the State Fire Marshal (OSFM). A section within the North Carolina [Department of Insurance](#) (DOI). Many people may not realize that the Commissioner of Insurance also serves as the State Fire Marshal in North Carolina. OSFM is comprised of the following six divisions: Engineering and Codes; Manufactured Building; Risk Management; Fire and Rescue Training and Inspections; Fire and Rescue Commission; Programs, Prevention and Grants.

Center for Public Safety Excellence (CPSE) – is a nonprofit corporation that promotes continuous quality improvement by providing training and career resource information to the fire and emergency service agencies and personnel that serves communities throughout the United States. In addition, CPSE serves as the governing body for the essential entity organizations that offer accreditation, education, and certification services to first responder and fire service industry professionals and agencies.

National Fire Protection Association (NFPA) – NFPA is a nonprofit organization whose goal is to reduce the worldwide burden of fire and other hazards on the quality of life by providing and advocating consensus codes and standards, research training, and education. NFPA serves as the world's leading advocate of fire prevention and is an authoritative source on public safety.

Insurance Service Office (ISO) - The Insurance Services Office, or ISO for short, is an insurance advisory organization, and its expert staff collects information about municipal fire protection efforts in communities throughout the USA. ISO analyzes relevant data and assigns a Public Protection Classification (PPC) a number from 1 to 10. Class 1 represents superior property fire protection, and Class 10 indicates that the area's fire suppression program does not meet ISO's minimum criteria.

Occupational Safety Health Administration (OSHA) – OSHA'S mission is to prevent work related injuries, illnesses, and deaths by issuing and enforcing rules (called standards) for workplace safety and health.

Assistance to Firefighters Grant Program (AFG) – The Assistance to Firefighters grant (AFG) provides financial assistance directly to fire departments and non-affiliated EMS organizations to enhance their abilities with respect to fire and fire-related hazards. The primary goal is to help fire departments meet their firefighting and emergency response needs.

Staffing for Adequate Fire and Emergency Response Grants (SAFER) was created to provide funding directly to fire departments and volunteer firefighter interest organizations to help them increase the number of trained "front line" firefighters available in their communities. The goal of SAFER is to enhance the local fire departments' ability to comply with staffing, response and operational standards established by the NFPA 1710 & 1720 and OSHA 1910.134.

"Trail of Terror," our local and annual department fund raiser conducted during the month of October and all funds raised are re-invested back into the fire department with purchases related to our missions and goals.
